Search for an Rx Image

To search for a prescription image:

1. Select **Tools > Rx Image Search**.

   The system displays the Rx Image Search window.

2. Enter the search criteria you want to use to limit your search as follows:

   a. In the **Starting KPRx** and **Ending KPRx** fields, enter the starting prescription number and ending prescription number from which you want to start and end your search.

   b. In the **Prescriber Last Name** and **Prescriber First Name** fields, enter the last name and first name of the prescriber you want to search.

   c. In the **Prescriber DEA** field, enter the DEA number of the prescriber you want to search.

   d. In the **Prescriber NPI** field, enter the NPI number of the prescriber you want to search.

   e. In the **Patient Last Name** and **Patient First Name** fields, enter the first name and last name of the patient you want to search.

   f. In the **Drug Name** field, enter the name of the drug you want to search.

   g. In the **Drug NDC** field, enter the NDC of the drug you want to search.

   h. In the **Drug GPI** field, enter the GPI of the drug you want to search.

3. In the **Starting Rx Written Date** field, enter the Rx written date from which you want to start the search. This is a required field.

4. In the **Ending Rx Written Date** field, enter the Rx written date from which you want to end the search. This is a required field.

5. To exclude specific drug types from the search, select the corresponding check box(es). Drug types include the following: CII, CIII, CIV, CV, Legend, and OTC.

6. To exclude new prescriptions from the search, select **Exclude New Rxs**.

7. To exclude refill prescriptions from the search, select **Exclude Refill Rxs**.

8. Select **Search Rx Images**.

   The system displays the RxImages window where you can use the arrow buttons to scroll through the prescription images that meet your search specifications.

9. Select the **x** in the upper, right corner of the window to close this window and return to the Rx Image Search window.
